# **WELT** Service and Supply Company

# Who We Are

Welt Service and Supply is a leading provider of innovative and reliable solutions for industrial, onshore, and offshore operations. With a commitment to excellence, we specialize in delivering a wide range of products and services tailored to meet the unique needs of our clients.

# Our Mission

To empower businesses by offering exceptional service quality, cost-effective solutions, and a dedication to exceeding customer expectations.

# Product & Service Categories

## We Offer:

### We Provide High-Quality Products in the Following Categories:

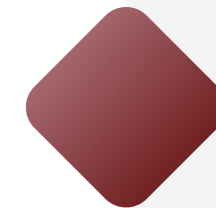

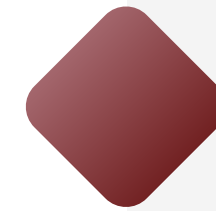

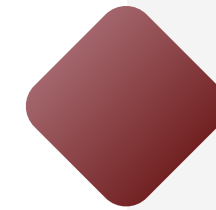

- **Spill Items:** Solutions to prevent and manage spills effectively.
- **Hoses & Fittings:** Durable and customizable options for all industrial needs.
- **Chemicals:** Industrial-grade chemicals for various applications.
- **Consumables:** Essential supplies to support seamless operations.
- **Office Items:** Reliable office equipment and materials.
- **Packing Items:** Secure and efficient packing materials for shipping and storage.
- **Lifting Items:** Heavy-duty lifting solutions for safe material handling.

# Spill Items

## Key Offerings:

- **Absorbent Pads and Rolls:** For quick absorption of spills on surfaces.
- **Spill Kits:** Comprehensive kits containing all necessary items for spill response.
- **Containment Booms:** Essential for controlling and containing spills in water bodies.
- **Drum and IBC Spill Pallets:** Prevent leaks and spills during storage and transport.
- **Chemical Neutralizers:** Ensure safe handling and cleanup of hazardous spills.
- **Drain Covers and Seals:** Protect drainage systems from contamination.

Industrial operations often face challenges in managing spills, which can lead to environmental hazards, safety risks, and operational downtime. Our spill management solutions are designed to minimize these risks efficiently.

# Hoses & Fittings

In industrial operations, reliable hoses and fittings are essential for ensuring the safe and efficient transfer of fluids, gases, and materials. Our products are engineered to withstand extreme conditions and tailored to meet specific application requirements.

**We offer our services offshore and are proudly certified with ATEX.**

## Key Offerings:

1. **Industrial Hoses:** Durable hoses designed for high-pressure, high-temperature, and chemical-resistant applications.
2. **Hydraulic Hoses:** Heavy-duty hoses for power transmission in hydraulic systems.
3. **Pneumatic Hoses:** Lightweight and flexible solutions for compressed air systems.
4. **Custom Fittings:** Precision-engineered fittings for secure connections and leak prevention.
5. **Quick-Connect Couplings:** For fast, secure, and easy hose connections.
6. **Hose Reels:** Efficient storage and handling for hoses of various sizes.

# Hoses & Fittings

## Bray Valve Distributor:

We are proud to be the official distributor of Bray Valve. Bray Valves are renowned for their precision, durability, and performance, making them the perfect addition to any industrial or commercial setting.

# Chemicals

Chemicals play a vital role in various industries, from production and maintenance to environmental protection. We provide a comprehensive range of high-quality chemicals tailored to your specific needs, ensuring efficiency, safety, and compliance.

## Key Offerings:

- **Cleaning Chemicals:** Industrial-grade solutions for tanks, machinery, and surfaces.
- **Lubricants and Degreasers:** Enhance equipment performance and reduce wear.
- **Water Treatment Chemicals:** Solutions for purification, descaling, and corrosion prevention.
- **Disinfectants:** Effective and safe products for maintaining hygiene standards.
- **Environmental Chemicals:** Spill neutralizers and biodegradable options for eco-friendly operations.

# Lifting Items

## Key Offerings:

- **Lifting Slings:** High-strength slings for heavy load handling.
- **Shackles and Hooks:** Secure connections for lifting systems.
- **Chain Blocks and Lever Hoists:** Manual lifting tools for precise operations.
- **Cranes and Lifting Beams:** Equipment for large-scale industrial lifting.

# Packing Items

## Key Offerings:

1. **Boxes and Cartons:** Durable options for various sizes and weights.
2. **Stretch and Shrink Wraps:** Secure wrapping solutions for pallets and irregularly shaped items.
3. **Packing Tapes and Adhesives:** High-bond strength for added security.
4. **Protective Materials:** Bubble wrap, foam sheets, and corner protectors for fragile goods.
5. **Straps and Bands:** Reinforced materials for heavy loads.
6. **Custom Packaging Solutions:** Tailored designs for specific product needs.

# Office Items

## Key Offerings:

- 1. Stationery Supplies:** Pens, notebooks, staplers, and other desk essentials.
- 2. Filing and Organization:** Folders, binders, and storage solutions for documents.
- 3. Office Equipment:** Printers, shredders, and other tools to streamline tasks.
- 4. Furniture:** Ergonomic chairs, desks, and cabinets for a comfortable workspace.
- 5. Digital Accessories:** Chargers, cables, and stands for gadgets.
- 6. Custom Solutions:** Branded items for your company's identity.

# Specialized Services

**We offer our services offshore and are proudly certified with ATEX.**

- **Testing & Crimping of Hoses:** Ensuring reliability and safety of hose systems through precise testing.
- **Installation of Racking Systems:** Custom solutions to optimize storage and accessibility in warehouses.
- **Onshore and Offshore Electrical Jobs:** High-quality electrical installations and maintenance, tailored for both onshore and offshore environments.
- **Painting and Cleaning of Tanks:** Professional-grade cleaning and painting to enhance durability and functionality.
- **Warehouse Floor and Wall Painting:** Expert painting services to improve the safety and appearance of facilities.
- **Installation and Repair of Air Conditioning Systems:** Ensuring efficient climate control through advanced AC services.

# Machine Shop Expertise

**Tube and Hole Cleaning:** Precision cleaning of tubes and drilled holes for optimal performance.

**Custom Machining Services:** Tailored machining solutions to meet specific operational requirements.

# Pipe Blasting and Painting Services

Pipes are exposed to harsh conditions that can lead to corrosion and wear over time. To protect and extend their life, we offer specialized services in pipe blasting and painting:

- **Blasting:** We thoroughly clean pipes using abrasive materials, removing rust, old coatings, and contaminants. This process ensures that the pipe surface is prepared for the application of protective coatings.
- **Painting:** After blasting, we apply high-quality coatings to protect your pipes from corrosion, chemical damage, and environmental exposure. This process ensures long-term durability and reduces maintenance costs.

Our blasting and painting services not only protect your pipes but also enhance their aesthetic appearance and operational lifespan.

# Custom Wood Products

- **Euro Pallets:** High-quality, durable pallets for transportation and storage.
- **Baskets with Lids:** Secure and practical storage solutions.
- **Custom Shackles:** Designed and manufactured to meet unique operational needs.

# Comprehensive Valve Maintenance Services

Proper maintenance of valves is critical for ensuring their long-term performance and reliability. At WELT, we offer a complete range of valve maintenance services designed to keep your systems running smoothly:

Note: We can provide valves from Bray companies.

**Valve inspections** and performance testing ensure that your valves operate at peak efficiency.

**Repairs and spare parts replacements** are conducted with precision to extend the life of your equipment.

**Valve refurbishment and reconditioning** breathe new life into older components, making them as good as new.

**Cleaning and lubrication services** prevent wear and reduce the risk of future breakdowns.

We also provide **sealing and packing solutions**, which are essential for maintaining pressure integrity.

# Reliable Pressure Testing for Hoses, Pipes, and Valves

Hydrostatic testing involves filling the hose or pipe with liquid, typically water or oil, and gradually increasing the pressure until the test pressure is reached.

Our range of pressure testing services ensures that all components in your system are tested for durability and safety:

- Hydrostatic testing for hoses, pipes, and valves, ensuring they can withstand operational pressures.
- Proof pressure testing to confirm systems can handle pressure beyond their standard operating limits.
- Pneumatic testing uses air to check system integrity without introducing liquids.

Each test is designed to ensure the reliability of your critical components, minimizing the risk of failure.

# Comprehensive **Leak Detection** Solutions

Ensuring that there are no leaks in your system is crucial for safety and efficiency. Our leak detection services utilize advanced techniques and technologies to detect leaks that are otherwise difficult to identify:

- ◆ Hydrogen leak testing offers a sensitive method to detect leaks in high-pressure environments.
- ◆ Nitrogen leak testing is ideal for various industrial settings, ensuring safety and compliance.
- ◆ Pressure decay testing monitors pressure drop over time to identify potential leaks.

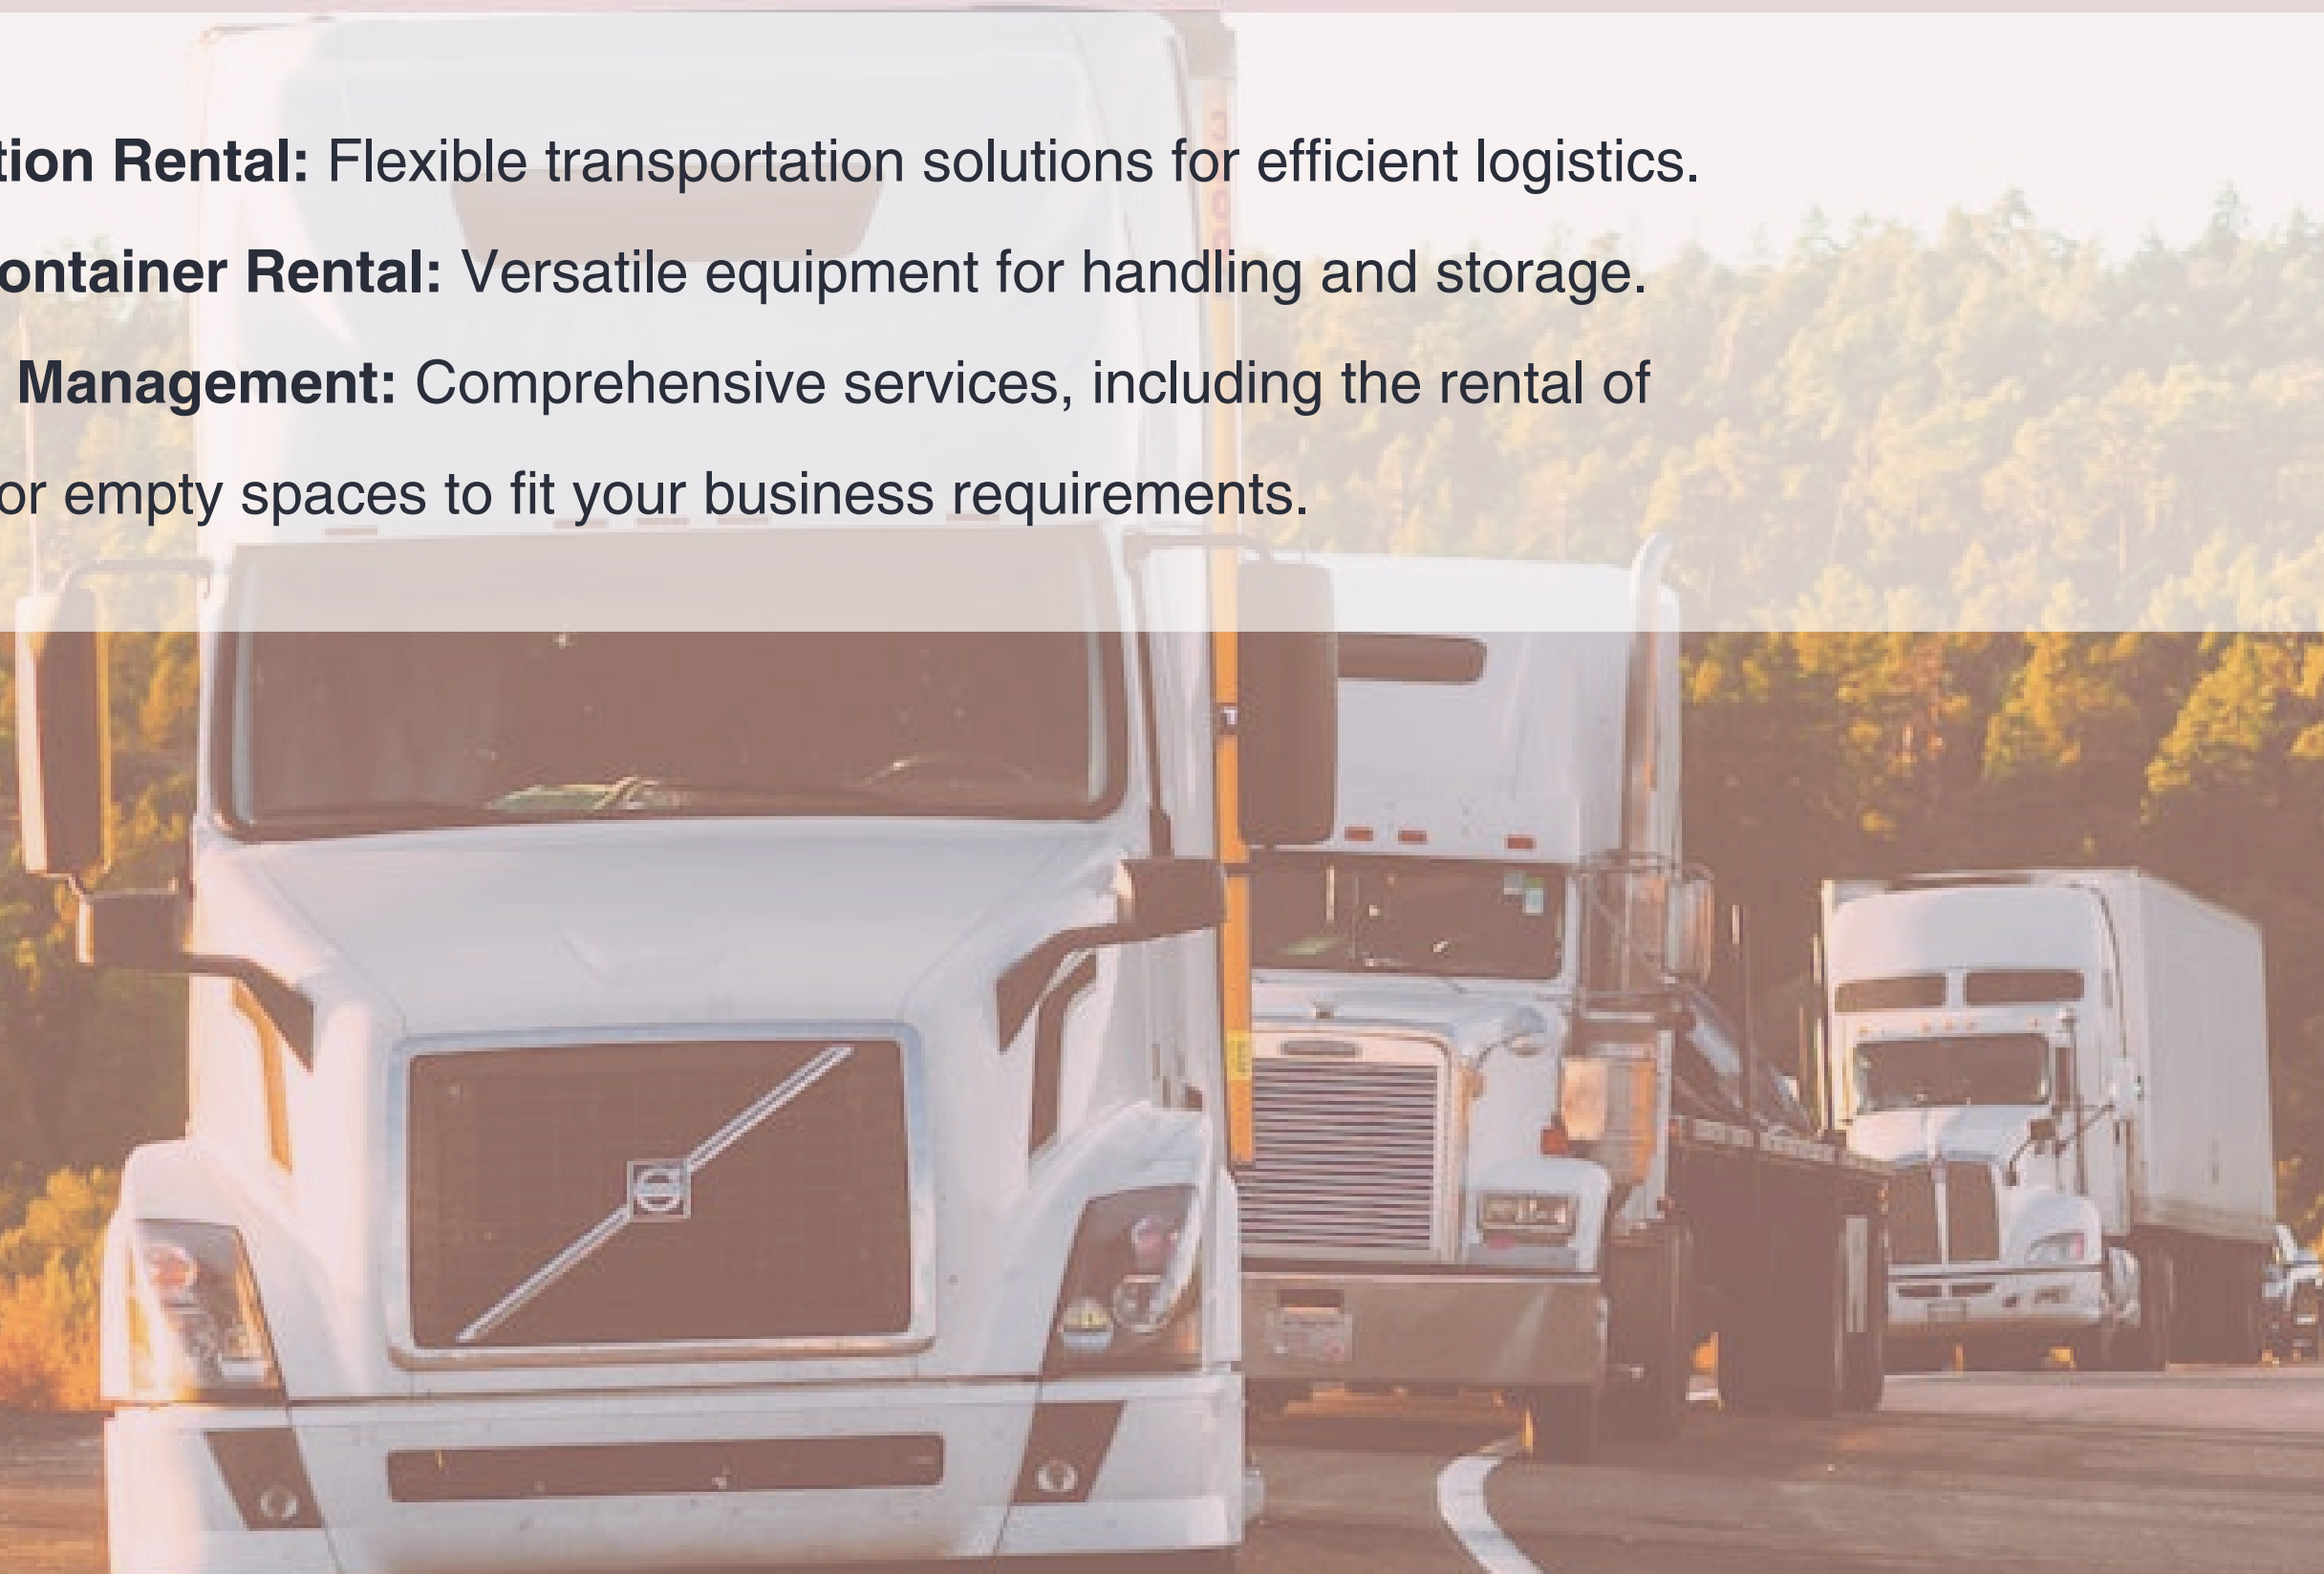

# Rental Services

**Transportation Rental:** Flexible transportation solutions for efficient logistics.

**Forklift & Container Rental:** Versatile equipment for handling and storage.

**Warehouse Management:** Comprehensive services, including the rental of customized or empty spaces to fit your business requirements.

# Partnership with WELT Service and Supply Company

- Proven expertise in providing innovative solutions across diverse industries.
- Dedicated to maintaining the highest safety and quality standards.
- Tailored services to meet the specific demands of each client.
- Experienced team delivering exceptional results with a customer-first approach.
